This device complies with 47 CFR Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation.

The equipment has been tested and found to comply with the limits for a class B device, pursuant to 47 CFR Part 15 of the FCC rules as documented in the above test report. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

The equipment referenced in this declaration is identical to the unit tested and found acceptable with the applied standards. The technical records maintained by Brigade Electronics Group Plc and the Responsible Party continue to reflect the equipment being produced under this Declaration of Conformity within variation that can be expected to arise as a result of quantity production techniques.
