

CAMERA MONITOR SYSTEM ANCILLARIES

Power Line Communication removes the need to fit suzie connectors and cables, saving considerable installation time

PLC-1000 - Transmitter & receiver	2586
PLC-1000T - Transmitter only (camera end)	2592
PLC-1000R - Receiver only (monitor end)	2593

- **12-24Vdc**
- **IP68**
- **Size (WxHxD)**
160 x 25 x 65mm
- **2 year warranty**

Features

- Saves cable fitting time
- Removes risk of incorrect suzie plug connections
- Compatible with Brigade monitor camera systems
- Camera connected to reversing light circuit at back of trailer via PLC transmitter
- Monitor connected to reversing light circuit in cab via PLC receiver

Please note:

- Not to be used in conjunction with CAN body bus or body multiplex systems
- Not to be fitted to petroleum road tankers
- Not compatible with shutter and tilt cameras
- No audio function

Power

- Current: 0.8 Amps
- Power output: 12Vdc (for camera)

Durability & Standards

- Operating temperature: -20 to +60°C
- CE marked
- EMC approved: E
