

WiFi Dongle for VBV-22X0C-AI
and VBV-1230-AI

Product Specification

Model Number:
AC575 (8443)

Package Contents 1 x AC575 (8443)	Technical Specifications Operating Voltage: DC5V Current Consumption: 92±8mA@12V Power Dissipation (5V In): 230mA IMS Band: 2.4G Reserver system: IEEE 802.11b/g/n Standard Communication interface: USB 2.0 Video Output: Approx 1.0 Vp-p / 75Ω Length of Cable: 90mm Overall Dimensions: 102 x 47 x 11 (mm) Finish: Black Assembled Weight: 25g	Environmental Specifications - Operating Temperature: -20° to +70°C - Storage Temperature: -30° to +80°C Approved Standards - CE - EN IEC 61000-6-2:2019 / EN IEC 61000-6-3:2021 - FCC - 47 CFR Part 15B, Class C - REACH - WEEE - RED: ETSI EN 300 328V2.2.2:2019 ETSI EN 301 489-2V2.2.3:2019 ETSI EN 301 489-17V3.3.1:2024 EN IEC 62311:2020
Key Features Allows connection to configure and calibrate VBV-22X0C-AI cameras and VBV-1230-AI box via a Wi-Fi hotspot. If used with VBV-22X0C-AI cameras a VBV-22X0C-CA-USB cable is required. *Note this tool is designed and tested to work on the camera and AI box only.		

FCC Warning:
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

Note 2: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC RF Radiation Exposure Statement. This device complies with FCC radiation exposure limits set forth for an uncontrolled environment. This device should be installed and operated with minimum distance 20cm between the radiator & your body.
