DATE OF RECEIPT	27th November 2007
TEST ITEM(S)	Reversing Camera
MODEL/PART NUMBER(S)	BE-50xC
SERIAL NUMBER(S)	BE-50xC-01
TEST SPECIFICATION / ISSUE / DATE	EN 60529:1992 Tables III, VIII and clause 14.2.8.
DATE OF TEST	2 nd January 2008

TEST(S) DESCRIPTION Protection Against Water Ingress by Immersion (IPX8)

The following test was completed as required by the specification:

1. The EUT was not electrically connected and the unused electrical connection was sealed by adhesive tape.
2. The EUT was completely immersed in fresh water to a depth of 1 metre above the highest surface of the EUT for a total period of 1 hour.
3. Upon completion of the test the EUT was subject to a detailed internal visual examination.

RESULT(S) OF TEST

The test requirements were satisfied. No water ingress was observed during an internal visual examination upon completion of the test. No other damage or detrimental effects were observed.
