Two

TEST SPECIFICATION / ISSUE

BS EN 60529:1992

DATE OF TEST

15 December 2006

TEST(S) APPLIED

Clause 14.2.8 IPX8: Continuous Immersion

Depth: 1 metre to top of test sample

Duration: 1 hour

Water temperature: 18.9°C

The samples were unpowered throughout the immersion.

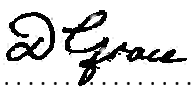

RESULT(S) OF TEST

All the Equipment Under Test (EUTs) operated satisfactorily prior to the immersion test.

The test samples were visually inspected externally and internally upon completion of the immersion test and no visual ingress or degradation of the EUTs was observed.

Upon completion of the visual inspection the EUTs were operated satisfactorily.

All function testing was performed by TUV Product Service Ltd.
